REASONS FOR ALLOWANCE

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 22 July 2005 has been entered.

2. The following is an examiner's statement of reasons for allowance:

3. As shown in the prior Office action mailed on 26 September 2005 and admitted in applicant's response, (p. 7, first complete paragraph), the system disclosed in US Patent 6,597,785 to Burke et al. is similar to the claimed invention. Further, as shown in the prior Office action there is motivation to replace the manual call success determination taught by Burke (Fig. 2, reference 250, 260) with the automatic determination taught in US Patent Application 2002/0137549 to Porter (Fig. 6, reference 606). However both Burke and Porter teach only a single step of determining success. Claim 1 claims two distinct steps, one of determining a result and storing the result, and another of determining successful connection and use of that result in selecting a dialing method for a subsequent attempt. There is no teaching or suggestion in the prior art or in the knowledge of one of ordinary skill in the art to modify the methods taught by Burke and Porter to comprise these two distinct determinations and associated distinct actions. As such, Claim 1 is allowable.

4. The remaining claims (i.e., Claims 21 through 35) are allowable due to dependence from Claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
